

FIRE CAPTAIN/EMT

General Statement of Duties

Performs difficult public safety, fire prevention, and supervisory responsibilities in the fire station on an assigned shift.

Distinguishing Features of Class

An employee in this class supervises and participates in operations at the fire station on an assigned shift. The employee leads the shift in emergency response including immediate supervision of fire staff inside structures, in emergency medical response, and in daily cleaning and maintenance activities including apparatus and equipment maintenance, station and grounds maintenance, and related activities. Other duties include supervising and participating in preparation of fire reports; and various projects for the department requiring coordination of staff. Work requires that the employee stay abreast of state-of-the-art fire suppression, hazardous materials, and rescue procedures, techniques, and equipment and requires the employee to incorporate the necessary changes into in-service training. Judgment and ability to make effective decisions under pressure are required, particularly in directing staff in incident response. The employee is subject to hazards associated with incident response work including working in inside and outside environments, working at heights, in extreme hot and cold temperatures, loud noise, vibration, moving parts, electrical current, high heat, chemicals, fumes, odors, dusts, gases, poor ventilation, oils, wearing respirators, and working in close quarters. Employees are also subject to final OSHA standards on blood borne pathogens. Work is performed under regular supervision and is evaluated through observation, conferences, and written reports concerning the quality and effectiveness of work completed and incident response. This position has been deemed Safety Sensitive.

Duties and Responsibilities

Essential Duties and Tasks

Provides supervision in the emergency response and station maintenance activities on an assigned shift; supervises and participates in the daily activities of equipment, apparatus and station maintenance activities.

Leads and participates in incidence response operations as required or until the arrival of an incident commander; leads in response to structural, vehicle or brush fires; emergency medical incidents; hazardous materials response/mitigation; technical rescue including vehicle/machinery rescue, confined space rescue, trench rescue, structural collapse rescue, high/low angle rope rescue and water rescue.
