

The Town of Shallotte has new rates effective July 1, 2024. The sewer rates have increased primarily due to two factors. The cost of wholesale treatment increased by \$1.00 per 1,000 gallons of sewer treatment. Secondly, the additional increase is in an effort to accurately capture costs related to sewer pumps, call volumes and cost of products associated with each category of customer. Residential customers have increased \$1.50 per tier and commercial customers have increased \$2.50 per tier.
